

5/2-way ISO valves

ISO 5599-1, Iso size 2

Materials:

Body and slider: aluminium, seals: NBR, pilot: polyamide
(glass fibre reinforced)

Temperature range:

-10°C to +60°C

Media:

oiled and unoled filtered compressed air

Switching time (at 5 bar):

< 35 ms

Control voltage:

Standard: 24 V=, 230 V AC, upon request: other voltages

Voltage tolerance:

± 10 %

Power consumption:

Direct current: 2.1 W, **alternating current:**
4,1 VA

Protection class (VDE 0470/EN 60529):

IP 65

Solenoid:

M (plug size 1)

Scope of delivery:

Valve including flange seal and fastening screws

Information:

These valves are generally delivered with coils and plugs!
