

Silencers Plastic

sintered

When compressed air escapes into the atmosphere, it produces noise. This can be prevented by installing a silencer.

These dampers are made of a porous housing sintered plastic. The air flows through the material and is distributed, reducing the noise level.

Material:

Silencers, plastic, sintered

Nipple Material: Nylon

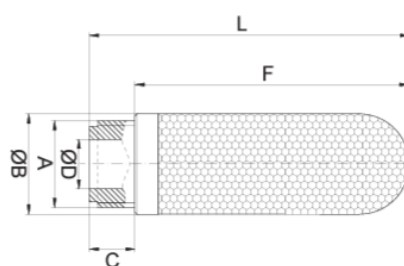

Filter material: Polyethylene

Male thread:

M5 to G 1"

D(mm):

3 to 22 mm

TECHNICAL FEATURES:

Article nr.	Thread (A)	ØB	C	ØD	F	L
VYONS5	M5	7	4	3	18	22
VYONS18	G 1/8"	13	7	5	28	35
VYONS14	G 1/4"	17	9	8	34	43
VYONS38	G 3/8"	20	11	10	56	67
VYONS12	G 1/2"	25	11	12	67	78
VYONS34	G 3/4"	38	16	16	116	131
VYONS10	G 1"	48	20	22	114	160
