

Two signal

3/2 way

Materials:

Body: anodized aluminium, internal parts: aluminium, brass and stainless steel, seals: plastic and NBR

Temperature range:

-10°C to max. +70°C (Standard design: -10°C to max. +60°C)

Media:

Oiled and unoiled filtered compressed air

Pressure input:

Connection P (type THV18310: Air supply via control signals)

Article number	Temperature range	Thread	Workload	Connection	Weight
THV18310	-10 tot +60 °C	G 1/8"	3 - 8 bar	G 1/8"	390 g
